Yamaha Innovations and Technology

Yamaha TR-1[®] Marine Engine: This powerful, compact, and lightweight three-cylinder, four-stroke engine delivers exhilarating acceleration throughout the engine RPM range. Plus, since it's a Yamaha motor, you know

it's built with the reliability you need for many hours of pure enjoyment on the water.

RiDE® Dual Throttle System: Provides independent functionality of the left and right handlebar levers, with the right lever controlling forward and the left lever controlling reverse. As a result, you can reverse by using the left lever while keeping both hands on the handlebars. This provides single-action forward/reverse capability. It also provides the ability to decelerate using the left lever while riding. (Not available on EX Sport and EX models)

"Limited" Package: Includes two waterproof ECOXGEAR® Bluetooth® footwell speakers, single-rider tube with tube holder, tube inflator, tow rope, tow rope bag, 12V outlet, custom cover with glovebox access, and gunwale fenders.
